

Lawrence B. Dumas Domain Dinner Proposal Form

Proposal Guidelines

Topics should appeal to a broad group of faculty across schools and disciplines and engage faculty in discussion of big questions and ideas. In order to highlight faculty from as many departments as possible, topics should contribute to the variety of Domain Dinner programming. A full list of past dinners and topics is available [here](#).

Domain Dinners consist of 60 minutes dedicated to faculty presentations, 30 minutes for open discussion, and a seated dinner. The format of the faculty presentations segment may vary, but due to time constraints it is strongly encouraged to limit the number of faculty presenters to three, with one additional moderator.

Please return your completed form by by saving and sending via email to Megan Blackwelder at megan.blackwelder@northwestern.edu.
