I. Impressions of [INSTITUTION]

Thank you for participating in the Northwestern Parent Survey. This survey is being sent to parents of enrolled students by a select group of colleges and universities. The results will help us serve both parents and students better. All individual responses will be confidential—only averages and other summary statistics will be reported. We hope you will complete the survey. A high response rate dramatically improves the usefulness of the results.

Either parent may fill out the questionnaire or both parents may complete the survey together. If you have more than one child attending Northwestern, please answer in reference to the older child who is enrolled as an undergraduate here this year.

As you will see, the survey asks for your general impressions of Northwestern and about your experiences as a parent of a college student, especially how you and your family are paying for college. There is space for comments at the end. The whole survey should take less than 15 minutes to complete. Submit each page by hitting the "Save & Continue" button, this saves your answers from that page. You may complete part of the survey and return at a later date to finish it. When you return to the survey your previous answers will be displayed for you to review and edit if you wish.

Remember your responses will be completely confidential, so please be candid. Your participation is very important and greatly appreciated. If you have any questions or
encounter any problems while taking the survey, please contact NU-parent-survey@northwestern.edu.
